

Polish American Congress

Since 1944, PAC has been serving the political interests of millions of Polish Americans while being actively committed to a free and sovereign Poland.

PAC was founded in 1944 during a mass rally in Buffalo, NY. Over 2,600 representatives of Polish American organizations were concerned about the future of Poland after WWII and realized the necessity of creating a single, strong political organization.

In 1945, PAC President Charles Rozmarek was the first American to publicly denounce as a betrayal the agreement in Yalta between Roosevelt, Churchill and Stalin on Poland and Central Europe.

PAC IN ACTION

1948: Successfully lobbied for congressional legislation that led to the admission of 140,000 Polish former prisoners of German death camps, slave workers, and veterans of the Polish Armed Forces in Western Europe to settle permanently in the US.

1949: Backed the creation of Radio Free Europe as a voice of truth to the peoples of communist-enslaved Central Europe.

1952: The Madden Committee, formed thanks to PAC lobbying, declared that the Soviet NKVD murdered 21,000 Polish POW's, which is a war crime known as the Katyn Massacre.

1981: Supported the Solidarity movement, joining efforts with John Paul II and President Reagan, which eventually led to the collapse of the Soviet Union and Poland becoming free again in 1989.

1999: Successfully lobbied for Poland's admission to NATO.

2016: Began advocating for permanent deployment of US troops in Poland.

2019: PAC efforts to include Poles in the Visa Waiver Program ended with success, thanks to the cooperation of President Donald Trump.

2022: Raised funds for the Polish Red Cross and Council on Aid to Ukrainians as the Russian invasion forced millions of Ukrainian refugees to cross into Poland.

2024: Supported a coalition of organizations to repeal WEP/GPO that unjustly taxed Polish retirees. The repeal was signed into law by President Joe Biden.
